IH INTERMEDIATE HIGH PROFICIENCY

Speakers at the Intermediate High sublevel are able to converse with ease and confidence when dealing with routine tasks and social situations that require an exchange of basic information related to their work, school, recreation, particular interests, and areas of competence. The breadth of their vocabulary and language control reduces the need for pauses and reformulations when they speak on such topics. The influence of other languages that they know may be evident in their articulation, stress, and intonation patterns, but rarely interferes with successful communication.

At the Intermediate High sublevel, speakers can handle a substantial number of tasks associated with the Advanced level, but they are unable to sustain performance of all of these tasks all of the time. They often can narrate and describe in all major time frames using connected discourse of paragraph length. When they do so, their speech exhibits one or more features of breakdown, such as inability to fully carry out narration or description in the appropriate major time frame, difficulty maintaining paragraph-length discourse, or a reduction in breadth and appropriateness of vocabulary.
